### Picture Descriptions

The forename(s) (or asterisks where not known) and surname of the artist indicates, in our opinion, a work by the artist named.

The initials of the forename(s) and the surname of the artist indicates in our opinion a work

of the period of the artist which may be wholly or in part his work.

The following terms apply in our determination of a picture description:

- (a) "Attributed to" - is in our opinion probably a work by the artist.
- (b) "Studio of" - is in our opinion a work from the studio of the artist which may or may not have been executed under his direction.
- (c) "Circle of" - is in our opinion a work of the period of the artist executed under his immediate influence.
- (d) "Follower of" - is in our opinion a work by a painter working in the artist's style, contemporary or nearly contemporary, but not necessarily his pupil.
- (e) "Manner of" - is in our opinion a work in a style related to that of the artist, but of a later date.
- (f) "School accompanied by the name of a place or country and a date" - means that in our opinion the picture was executed at that time and in that location; e.g. Flemish School, 17th century.
- (g) "After" - an artist is in our opinion a copy of any date after a work by that artist.
- (h) "Signed and/or dated and/or inscribed means that in our opinion the signature and/or date and/or inscription" - are from the hand of the artist.
- (i) "Bears signature and/or dated and or inscription means that in our opinion the artist's name and/or date and/or inscription" - have been added by another hand.

- (j) All references to signature, inscriptions and dates refer to the present state of the work.
- (k) Dimensions are given height before width and do not include the frame.
- (l) Pictures are framed unless otherwise stated.

#### **Droit de Suite/Artists' Resale Rights**

All items in this catalogue that are marked with "✓" are potentially qualifying items, and the royalty charge (set out below) will apply if the Hammer Price is more than the UK sterling equivalent of €1,000. The royalty charge will be added to purchase invoices, and must be paid before items can be cleared. All royalty charges are paid to either the *Design and Artists Copyright Society ("DACs")* or the *Artists' Collecting Society ("ACS")* by the auctioneers, and no handling costs or additional fees with respect to these changes will be retained by the auctioneer.

From 14 February 2006 United Kingdom art market professionals (which includes auctioneers) are required to collect a royalty payment for all works of art that have been produced by living artists, and those who have died within the last 70 years. This payment is calculated on qualifying works of art which are sold for a Hammer Price more than the UK sterling equivalent of €1,000 (the UK sterling equivalent will fluctuate in line with prevailing exchange rates). It is the responsibility of the Buyer to acquaint themselves with the actual Euro to UK sterling exchange rate on the Day of Sale. The actual qualifying threshold will be calculated by the "Artist's Resale Right Service Hub" based on the "European Central Bank"

reference rate published at 2.15pm on the Day of Sale and can be found on [www.dacs.org.uk](http://www.dacs.org.uk) The royalty charge for qualifying items which achieve a Hammer Price of more than the UK sterling equivalent of €1,000 is as follows:

- Up to €50,000 - 4%
- €50,000.01 to €200,000 - 3%
- €200,000.01 to €350,000 - 1%
- €350,000.01 to €500,000 - 0.5%
- Exceeding €500,000 - 0.25%

For further information please visit [www.dacs.org.uk](http://www.dacs.org.uk) or [www.artistscollectingsociety.org](http://www.artistscollectingsociety.org). There is no VAT payable on this royalty charge.

#### **Coloured Stones**

It should be noted that gemstones are often treated to improve their appearance. Heating, for instance, can intensify the colour or transparency of sapphires and rubies, whilst oiling can improve the clarity of emeralds. The international jewellery trade generally accepts these methods. Once heated, the colour enhancement is permanent, though there may be some effect on the durability of the gemstone in question. Once a gemstone has been oiled, the process may need to be repeated in the future to maintain the clarity.

#### **Watches**

All Lots are sold as seen, and the absence of any reference to the condition of a watch does not imply the lot is in good condition and without defects, repairs or restorations. Most watches have been repaired in the course of their normal lifetime and may now incorporate parts not original to them. We do not undertake any inspection of any watches prior to any Sale. We make no representation or warranty that any watch is in working

order. As watches often contain fine and complex mechanisms, Prospective Buyers should be aware that a general service, change of battery or further repair work, for which they are solely responsible, may be necessary.

#### **Vehicles/Motorbikes**

All lots are sold as seen. We do not accept any responsibility for any repairs/defects or restorations of any such item. We have not carried out inspections or testing on such items and the absence of any reference to the condition of a vehicle or motorcycle does not imply it is in good condition. We make no representation of warranty as to any condition of any vehicle or motorcycle.

#### **Post 1950 Furniture**

Some furniture offered in the sale (as applicable) was not originally intended for use in a private home and will be sold under the category "works of art". It is possible that some furniture does not comply with the Furniture and Furnishings (Fire)(Safety) Regulations 1989 and, for this reason, should not be used in a private home or re-upholstered. We do not provide any warranty or guarantee as to the safety of such furniture or the compliance with the Furniture and Furnishings (Fire) (Safety) Regulations 1989.

#### **Books**

Whilst reasonable endeavours are used to describe items accurately, Lots are sold with all faults, imperfections and errors of description. However, if upon collation, any book sold as an individual item, is found to lack text pages or illustrations, the same may be returned to Tennants within seven days of the Day of Sale with a written description of the defect.

This shall not apply to the lack of blank leaves, half-titles, lists of plates, imprimatur, receipts, errata or adverts, nor to the presence of staining, foxing, annotation, worm holes and shaving, or defects to bindings, nor to the lack of subsequent published volumes, supplements or appendices.

Please note, the following items are sold with no right of return:  
books sold in multiple, whether named or otherwise;  
atlases;  
maps;  
manuscripts;  
periodicals;  
postcards;  
and ephemera.

#### **Method of Payment**

Payment is accepted by cash up to £8,000, debit or credit card, cheque or bank transfer.

Card payments where the card holder is not present will only be accepted for transactions up to £500.

Payment can be made and purchases collected during the auction.

All accounts must be settled within 14 days of the sale. Accounts not paid within 14 days will automatically be subject to an interest charge of 5% above base rate from the day of sale.

#### **Collection**

All purchases must be collected from our Leyburn offices, unless stated otherwise, within seven days of the Sale (Monday to Friday 8.30am to 5.00pm).
